MH MK2 SETUP GUIDE WITH KEYSPAN FOR MAC OS X

IMPORTANT: In order to use this cutter with a Mac Computer you need a USB to Serial adapter; we recommend the KeySpan adapter made by TrippLite.
This device is available on our website. Click here for more information.
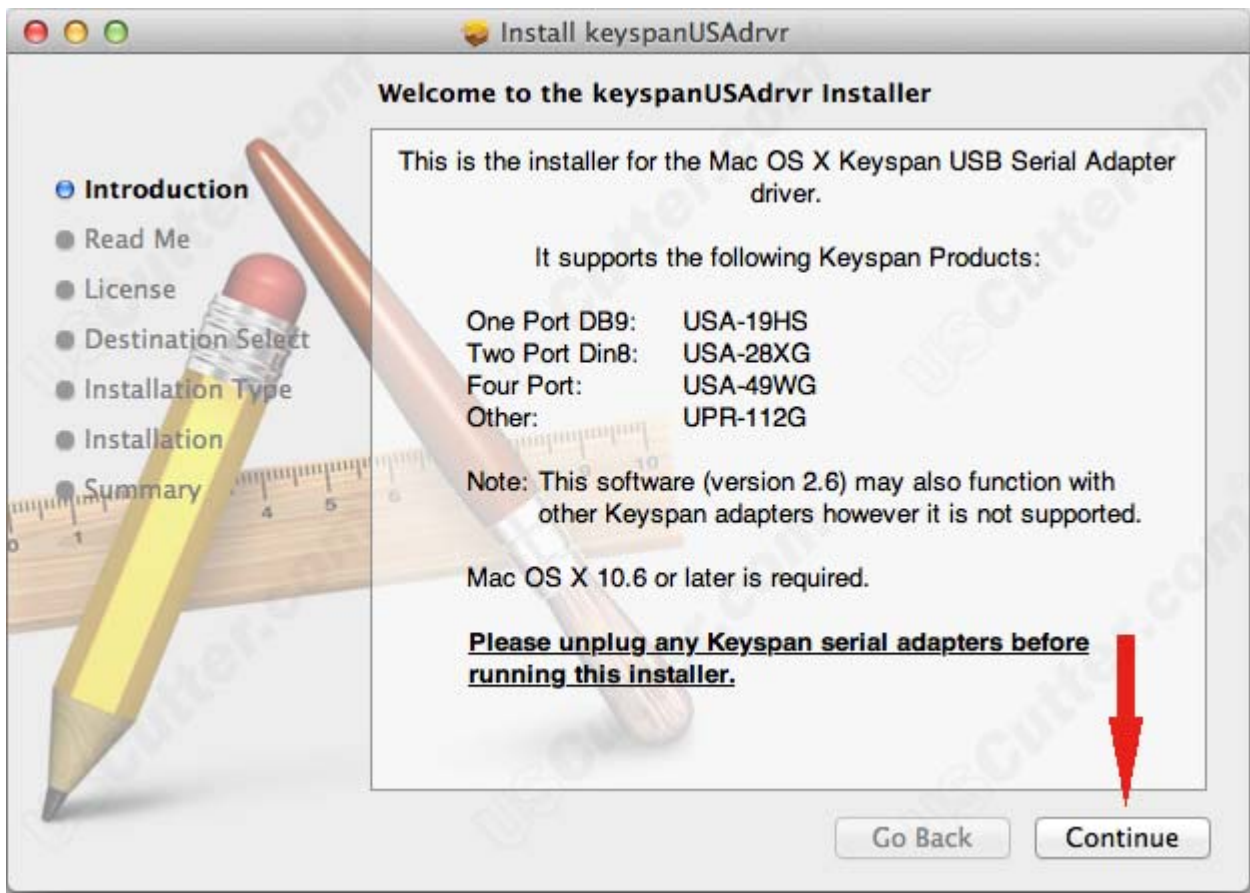

PARTS REQUIRED FOR THE CONNECTION:

- Power Cable (included with cutter)
- USB Cable (Included with cutter)
- Null Modem Serial Cable (included with cutter)
- KeySpan Adapter (sold separately)

KEYSPAN ADAPTER DRIVER INSTALLATION

STEP 1: You can install the KeySpan Adapter driver using the CD included, but we highly recommend downloading the most recent driver linked below.

IMPORTANT: Make sure the KeySpan serial adapter is NOT plugged into your Mac, download the driver and select the version of OS X accordingly.

* * * * DOWNLOAD REQUIRED USB DRIVER * * * *

*

STEP 2: Locate the **KEYSPAN_OS_X.dmg** file just downloaded and double click to open.

**STEP 3:** You will see three files, select based on your OS X version.

**STEP 4:** Once the file runs the Setup Assistant will display, select **Continue**.
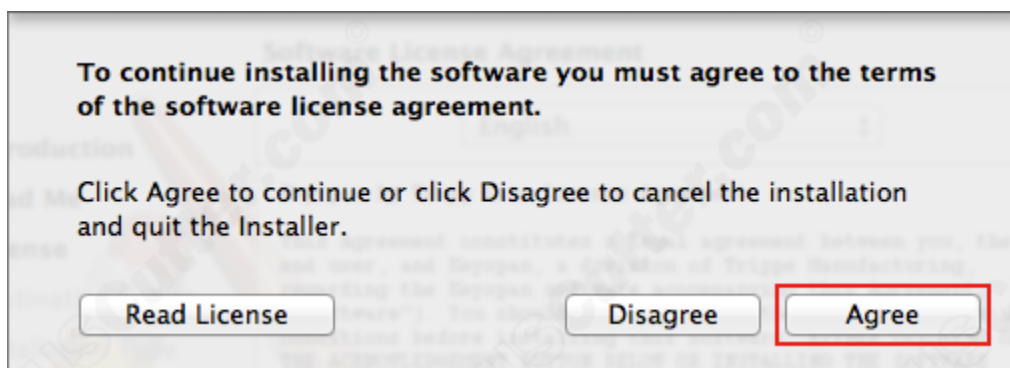

**STEP 5:** The Software Information "Read Me" will display, select **Continue**.

STEP 6: The Software License Agreement will display, select **Continue**.
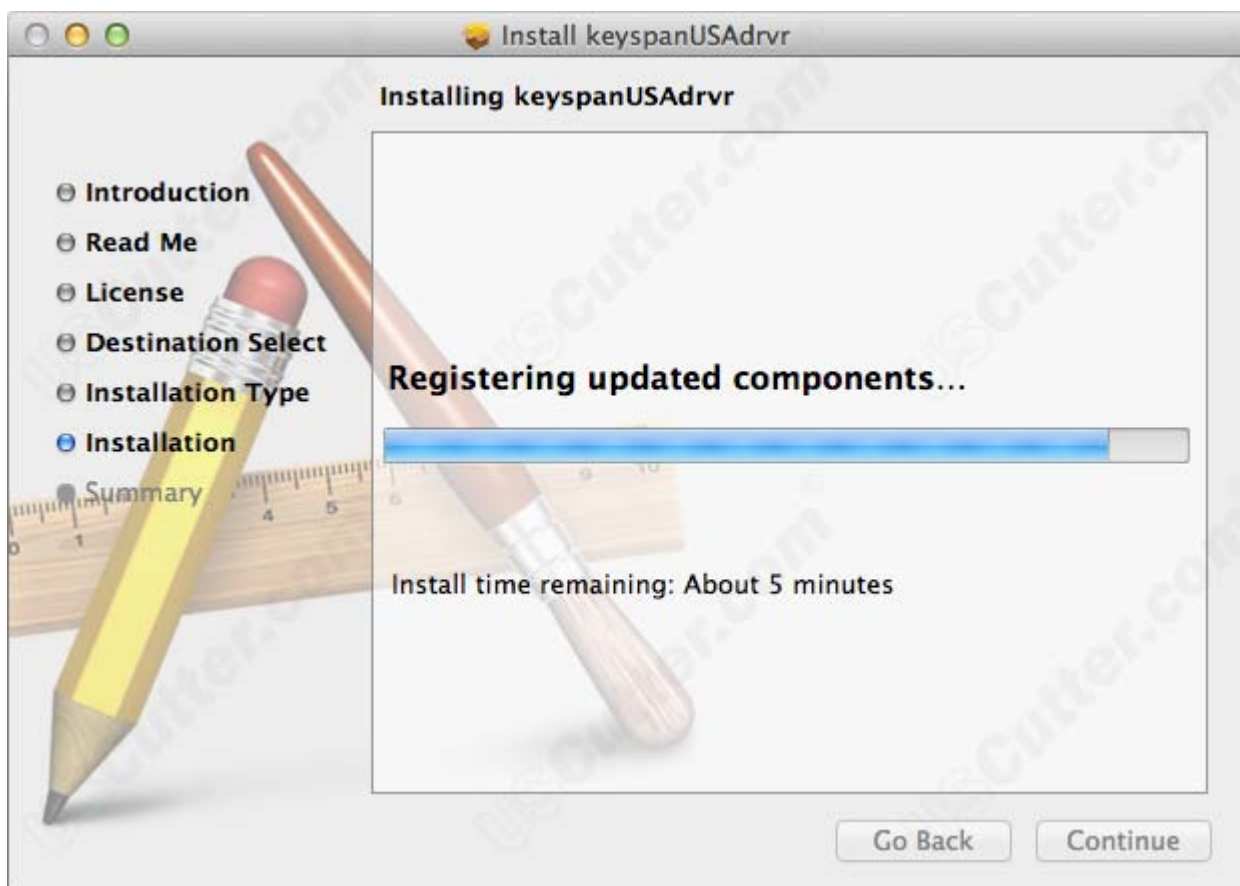

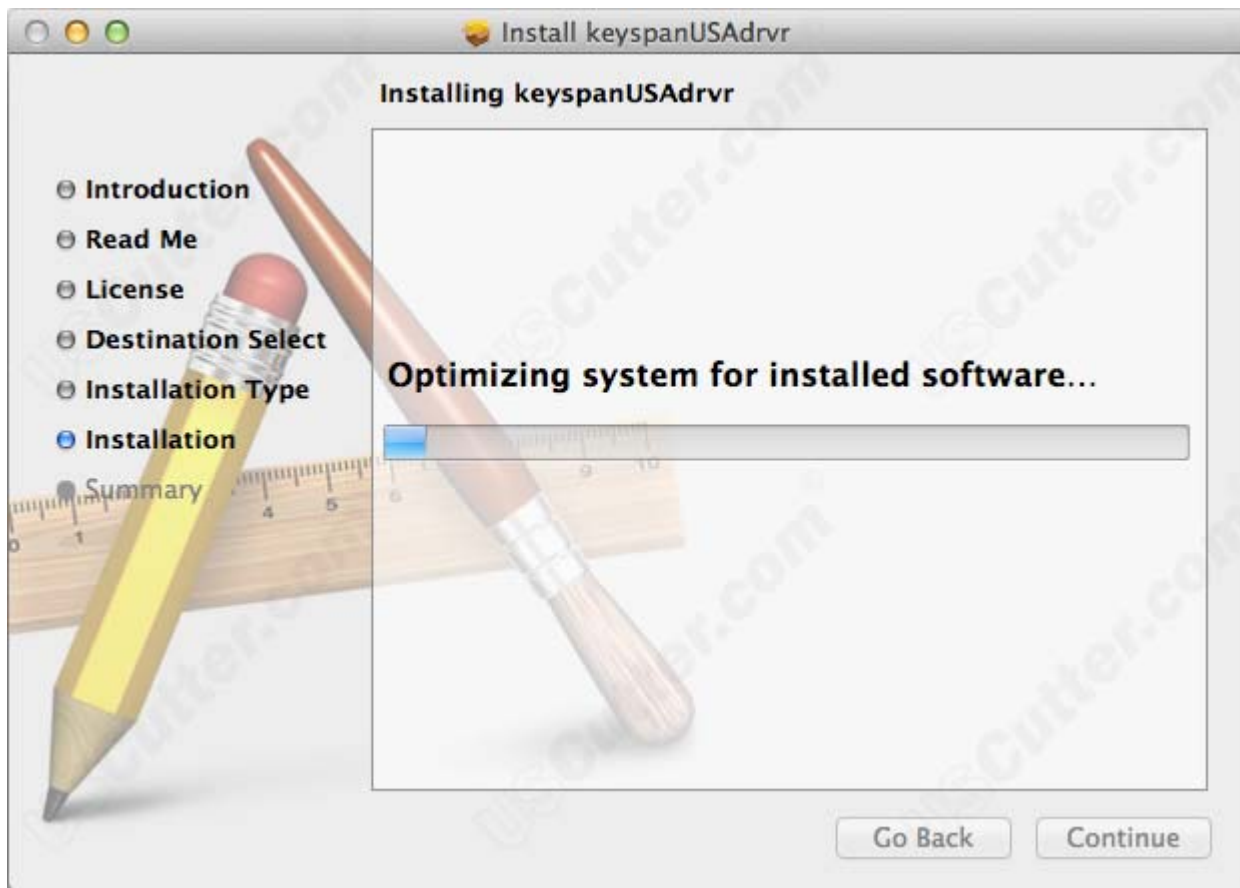

STEP 7: Click **Agree**.

To continue installing the software you must agree to the terms of the software license agreement.

Click Agree to continue or click Disagree to cancel the installation and quit the Installer.

Read License   Disagree   Agree

STEP 8: Select **Install**.

Install keyspanUSAdrvr

Standard Install on "MAC OS X"

Cancel   Install Software

STEP 10: Installing the KeySpan driver...

NOTE: The following message will display notifying the driver was successfully installed. Press **Close**.

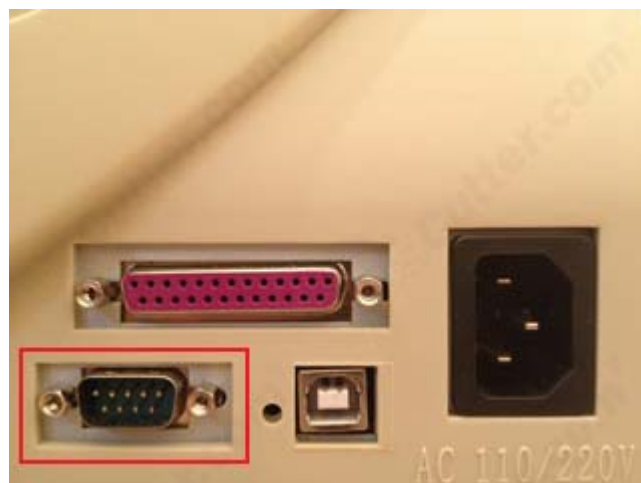

NOTE: To finish the installation is recommended to **Restart your Mac**.

KEYSPAN ADAPTER CONNECTION SETUP

IMPORTANT: The Baud Rate in the cutter settings needs to be changed from 9600 to 4800. Turn on your cutter and follow the steps below.

1. Press the **Setup button** once or twice and look for **Baud Rate**
2. Press the **left** or **right** keys and change to **4800**
3. Press the **Reset button**

STEP 11: Connect the **Null Modem Serial Cable** to the Serial Port of the cutter.

STEP 12: Connect the **Null Modem Serial and USB Cable** to the KeySpan Adapter as shown below.

STEP 13: Connect the **USB cable** to your Mac.

Enjoy your new vinyl cutter! Thank you for choosing USCutter
